According to Consul Holaday at Santiago de Cuba, the sugar production in eastern Cuba has doubled in the last five years. The province of Oriente produces 30 per cent of the entire Cuban output. Latterly French machinery has been gaining on American in Cuban factories because the American makers are not in a position to give long credits or to unite in financing the factories.

Stock and other markets in New York were closed yesterday on account of the election.

The Junior Member Speaks.

The several members of the family had been telling what they would do if they owned the world. Mother would provide absolute justice for all. Sister Sarah would give every woman the vote.

Finally the views of 10-year-old Johnny were sought.

"What 'ud I do if I owned the world?" said he, looking up from a geography he had been studying. "Well, I'll tell you what, I do. First I'd get old A.ias to sign up two baseball teams among his brothers and cousins; then I'd lay out a diamond on the desert of Sahara, put the Rocky Mountains around it for a fence, give the players the moon for a ball and the North Pole for a bat, and say, maybe I wouldn't sit on top of Pike's Peak and see some ball game."

ICE BUSINESS NOT GOOD FOR BAD LUNGS

Miss Lucy Ward, special officer of the Humane Society, reported at the meeting of that organization this morning that she has under investigation the case of a Portuguese boy, 13 years old, who contracted tuberculosis through handling ice for a local concern during the summer vacation.

Upon taking the matter before a physician, the special officer learned that the case is the third of its kind to occur within the past few months.

The report tendered by Miss Ward with regard to the case shows that, during the vacation, these boys hire themselves out to the ice concerns and go with the wagons each day, their duties being to carry the ice into the different houses. It is understood that they go to work as early as 4 o'clock in the morning, never finishing until noon. Through handling the ice, the clothes of the boys generally become saturated in a short time, and it is from this that it is believed they contract the disease. The matter was discussed at some length by the society, being turned over to the children's welfare committee for a thorough investigation. Another matter to be investigated by the same committee is that regarding liquor-drinking and dance-halls. It is known that, in many instances, men attending these dance-halls bring liquor with them, and, between the dances, take it to nearby restaurants for consumption, taking their friends with them as they choose. The society desires to have a stop put to this and will endeavor to secure the cooperation of both the police and the board of supervisors, through the committee.

Special Officer Miss Ward is now investigating the cases of three old people, all Hawaiians, who are suffering with paralysis and are unable to support themselves. She said this morning that efforts to get them into the Leahi Home had been without avail, as that institution had no funds to admit additional patients at this time. Miss Ward will consult with Mrs. Alice C. Jordan, manager of the Associated Charities, this afternoon to see if that organization can lend aid in removing the people to the home.

Miss Ward, in her report, mentioned that she had handled 17 cases regarding ill-treatment of animals, the majority of the ailments being gall-stones and bruises, while there were several instances of check-reins and overloading. Cases dealing with children were handled to the number of seven.

BISHOP STREET AND DANCE HALL ARE DISCUSSED

Supervisor Petrie introduced a resolution last night at the meeting of the board of supervisors calling for the opening of Bishop street from Hotel to Beretania.

The resolution was introduced according to schedule, as agreed at the public meeting held by the city fathers on the opening of the Bishop street project.

Steps will at once be taken to get the property data—property to be affected by the extension—in shape that the work may proceed without delay.

Several difficulties have appeared which are to be disposed of, but according to Supervisor Petrie there is good reason to believe the street can be opened under the new statute providing for such work.

One of the features of the supervisors' meeting last night, which, it may be added, was the record meeting of the present board in point of duration, was the introduction of a dance hall ordinance, which carried with it the local option feature.

CHILD'S DEATH BRINGS VERDICT OF \$3000

It took the jury in Judge Dickey's court only 15 minutes to arrive at a verdict in the \$10,000 damage suit of Ah Kwai Yee Wo against the Alexander Young Building Company, awarding the plaintiff damages in the sum of \$3000. Argument first counsel was limited by the court, the jury bringing in its verdict in time to enable Judge Dickey to catch the 5 o'clock boat yesterday for Kauai, where the fall term of his court begins today. Stanley and Stainback, counsel for the defendant, excepted to the verdict and gave notice of appeal.

E. M. Watson and W. B. Lymer conducted the case for the plaintiff. The case involved a number of days of long hard work and Watson's associates of the bar were glad to see that he has recovered his health sufficiently to handle the exacting duties of his profession.
